Dear all

Further to the meeting that was held on Lake Road outside Windermere Police Station on 9 September 2011 I can now attach a draft design plan. Highway officers have looked at the location and considered the request for a bay provision partly on and partly off the area which we believe is highway. Initial cost estimates for the physical works are estimated were £1085. I have passed the initial proposal to Jonathan Stephenson as the Local Elected member for his consideration and he indicated his support for the plans for the bay in principle.

Following the initial plans we have undertaken a design review considering users of the existing carriageway and footway for cyclists, pedestrians and the parked vehicles. It is necessary to consider whether tactile surfacing is required for any visually impaired pedestrians on the footway. We have included some guardrail however it would be necessary to direct them around the bay so that there isn't any conflict with pedestrians and buses. This tactile surfacing could have cost implications estimated at an additional £2000.

There is a need to determine funding for a scheme to go ahead. I would need also to undertake a consultation by notice for a Bus Clearway as was discussed. At the current time with no funding allocated and because staff are fully utilised undertaking the delivery of programmes for work for 2011/12 it is not possible to spend any additional staff time on it.

If you need any further information please let me know.

Yours sincerely

Victoria

Hi Pamela!

Many thanks for this.
